

Each angled panel has a different pole coverage
Pole coverage amounts shown in mm below in the blue circles

Technical Specification

Header panel @25%	156.25mm x 62.5mm
Full size	625mm x 250mm
Front main panel @25%	156.25mm x 250mm
Full size	625mm x 1000mm

Pole Coverage

It is possible to print graphics bigger than the standard panels which then cover the poles either side of the panels. This extra width is referred to as 'Pole Coverage'.

Pole coverage can be worked out using the diagrams on the left and added to the panel width, depending upon which configuration you have.

Artwork Requirements

- Artwork must be set up at 25% with 3mm bleed (to the overall outside edge) and in CMYK
- Images must not exceed 100% in size @300dpi resolution
- Guidelines must not be within the artwork as these will print
- Colour profiles should NOT be embedded
- Overprint fill MUST be turned OFF in all cases
- All transparencies should be flattened
- The finished graphic should be saved out as a single spread (not as separate pages).
